English

Dear KG2,

It was wonderful catching up, seeing your bright smiles, and getting back into our classroom routines together.

As we move into our next week, get ready to put on your scientist hats! We will be conducting an exciting **Ramp Test** to explore how different toys move. We'll practice making predictions about which toys travel the fastest and farthest, test our ideas, record and compare our results just like real researchers. It's going to be a fun, action-packed week of discovery!

Let's keep up the wonderful energy, work hard, and make it another week full of fun and discovery!

Have a fantastic week ahead, everyone!

Ms. Yvonne (ylau@kis.edu.hk)
